Coauthors,

Sorry to clutter your inboxes so much recently, but I thought you would want this news. We are accepted in Science.

Thank you all for your efforts, expertise and patience!

The attached version is what is accepted.

Sincerely, John

Subject: RE: Acceptance of your Science Manuscript aba7127

Dear Dr. Yeston,

I just found your acceptance letter in my Spam folder again!

Thank you very much for all your time and effort.

We do not have plans on presenting this work outside of internal Agency meetings, consisting only of small groups, at anytime before publication in Science. We intend to comply with Science's policies. I would be entirely agreeable should our paper be selected for early online publication, using the accepted version of the manuscript.

I will check with our organization regarding "striking visuals."

Thanks again,
John Washington

Subject: Acceptance of your Science Manuscript aba7127

16-Apr-2020

Manuscript number: aba7127

Dear Dr. Washington,

I am pleased to accept your paper "Nontargeted mass-spectral detection of chloroperfluoropolyether carboxylates in New Jersey soils." for publication in Science. Your paper will now be prepared for publication by our copyediting department. We will edit your manuscript to improve clarity, to save space, and to conform to Science style. You will have an opportunity to approve these changes before final print publication. Our printer will send an email to you with instructions for viewing and approving your proofs online.

Your paper may be considered for earlier publication online via First Release. Please alert us immediately if you are presenting this work at an upcoming conference or have any other specific requests regarding the timing of publication. For early online publication, we use the accepted version of the manuscript and do not send proofs.

Please check again and confirm the authorship of your paper and that every author is appropriately listed and included in the final revised manuscript. This is especially important for papers with large author lists or including group authors. We will consider the list in the revised manuscript as final. Any changes in authorship from the original submission require the approval of all authors and must be noted to us immediately. Some changes may not be allowed or may lead to rejection of the paper. Changes after publication, including rapid online publication, are not allowed.

Your paper is under embargo until 2:00 pm EST on the day of publication. Our Office of Public Programs will be contacting you about a week before publication with detailed information regarding the embargo that will ensure that your paper is covered maximally and accurately in the popular press. At that time they will also be requesting any multimedia or striking visuals that they could distribute to the press. In the meantime, refer any press requests for copies of your paper or for interviews to Meagan Phelan, Science Press Package Executive Director (mphelan@aaas.org or 202-326-6436). Alternately, you can send an email to scipak@aaas.org.

For authors with NIH or Wellcome Trust grants intending to deposit the accepted version of their paper on PubMed Central, the following text must be displayed as a footnote with an asterisk to the manuscript title:

"This manuscript has been accepted for publication in Science. This version has not undergone final editing. Please refer to the complete version of record at <https://gcc01.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.sciencemag.org%2F&data=02%7C01%7Cstrynar.Mark%40epa.gov%7C07c5b1de421e4b5c731308d7e2487480%7C88b378b367484867acf976aacbeca6a7%7C0%7C637226673169768945&data=mCwytZgqFMTwx64XKcw7tvK%2FdPf7%2Fu2Qm7T5kqbh6ew%3D&reserved=0>. The manuscript may not be reproduced or used in any manner that does not fall within the fair use provisions of the Copyright Act without the prior, written permission of AAAS."

The success of Science Magazine depends on your contributions. Thank you for submitting your best work to us.
